The worst part is that, there are no anti-cheat systems in Minecraft, so you can just hack all day and night and the server owner will be fine with it. However, this is not recommended because of the consequences you might suffer from when you have a moderator or admin to kick or ban you out. If you want to obtain the same advantages of cheats, but don't want the risks associated with cheats, then try using mods instead. Unfortunately, pro players who get banned for cheating will use ban evading methods which will allow them to bypass bans or avoid detection from server administrators. Many servers have picked up on this and started filtering IPs for known cheats and ban evaders.",

Minecraft Bedrock Edition is a new game on the market. It's like Java version of Minecraft, but everything is changed to be more like mobile or console. It has all of the original features of Minecraft and you can play with your friends, make new friends and chat in real-time right from your phone.",
